PARALLEL CLAMP SYSTEM

Vario K Body® REVO™, variable jaw parallel clamps

Offers a new and innovative approach to clamping. Now you can adjust both jaws to simplify difficult glue ups which might not otherwise be in balance. You can also attach bars together end-to-end with the KBX20 extender and create extra-length clamps as needed. Add an extra jaw face (KR-VO) for multiple glue ups or create your own custom clamping system.

KR-VO variable jaw

Replacement variable jaw as a single unit, or add a jaw for multiple glue ups.

KR-AS jaw adapter

Slides on without special tools.

KBX20 Extender

Double your reach! Connect two K Body® REVO™ rails with the KBX20 for an extended reach.

K BODY® REVO™ JR

A new, mid-sized version of what made the full-sized BESSEY® REVO™ parallel clamp so great. 30% lighter than a full-size REVO™ parallel clamp with high-end quality but with a mid-size price. Powerful 90° degree parallel jaws with up to 900 lbs of clamping force. Try one for yourself!
